

## INTERLEAVED FLAP WHEELS

Kasco interleaved flap wheels are made to order with maroon nonwoven material layered with abrasive cloth.

All wheels in this list have a 1/4" shank.

Grits for the abrasive cloth can be specified from 80 to 400 grit. Most common is 180 or 150 grit. The last three digits of the part number are the grit.

*See Page 12 for abrasive cloth flap wheels.*

Size D x H	Part No	Pack
1 x 2	851801xxx	20
1½ x 1/2	851802xxx	20
1½ x 1	851803xxx	20
2 x 1	851804xxx	20
2 x 2	851805xxx	20
3 x 1/2	851806xxx	20
3 x 1	851807xxx	20
3 x 2	851808xxx	20

## SCUFF BALLS

Kasco's Scuff Ball™ tools are made up of individual layers of non-woven material layered, compressed, and assembled into a ball. They have a series of fingers that can reach into tight spaces and conform to the work piece. They resist clogging and do not overheat. Some of benefits include:

- Power scuffing saves labor and provides a more consistent finish.
- The ball shape provides superior performance over hand scuffing.
- The Scuff Ball™ renews itself as it wears.
- It can be cleaned with compressed air or water.
- They do not overheat due to airflow through the open web structure.

Available in two sizes: 4" diameter rated at 5,000 RPM and 2.5" diameter rated at 10,000 RPM. These RPM ratings are maximum but Scuff Balls™ works very well at slower speeds typical of electric drill motors.

Part No	Description
680122	Scuff Ball 4" x 1/4 Shank Maroon Med
680123	Scuff Ball 4" x 1/4 Shank Grey Fine
680124	Scuff Ball 4" x 1/4 Shank Green Coarse
680132	Scuff Ball 2-1/2" x 1/4 Shank Maroon Med
680133	Scuff Ball 2-1/2" x 1/4 Shank Grey Fine
680134	Scuff Ball 2-1/2" x 1/4 Shank Green Coarse

The colors below correspond to the popular 6" x 9" SDC hand pad material

**Coarse Green** Compares to #2 steel wool. Use for heavy scrubbing and removal of rust and scale.

**Medium Maroon** Is a general purpose grit comparable to #00 steel wool.

**Fine Grey** Compares to #000 steel wool. It produces a bright shiny finish.
